UFO LANDS IN SUFFOLK

A UFO has landed in Britain – and that staggering fact has been officially confirmed. Despite a massive cover-up, News of the World investigators have proof that the mysterious craft came to earth in a ball of light at 3 a.m. on December 27, 1980.

It happened in a pine forest called Tangleton Wood just half a mile from the United States Air Force base at RAF Waddington, in Lincolnshire.

And that's OFFICIAL

NO HOAX SAVES THE

Andrew Johnson has a background in Software Engineering and tutoring and education. In 2003, he began intensive research into "Alternative Knowledge" topics such as UFOs, 9/11, Mars, Apollo Missions and Health Issues. He has posted this research at www.checktheevidence.com

For over 65 years, we have heard stories in the news about "flying saucers", aliens and "UFOs". Some people still dismiss the whole subject as "nonsense", while millions have had sightings and thousands have had incredible experiences. Over the last 30 years, many former military, government and other officials have come forward to disclose what they know. A study of the compelling evidence they present proves there is a cover up – but what is being covered up? What is truly known? What are the implications of the cover up?

This presentation by **Andrew Johnson** will look at a number of strands of a complicated subject, which mainstream media has seemingly given increased exposure to over the last few years. While this presentation does not "have all the answers", it will attempt to dispel the idea that "we will never know the truth". The truth that you can know is of vast importance – and affects every single aspect of our lives...

If you want to know more, please [bring as many people as you can to this event](#) – and [study some of the evidence yourself](#).
