RE: Corruption

Sir,

Please find enclosed exactly the same documents etc. that were received by the Solicitor General Ted Olson a while ago. The copy of wiretap tape numbered 139 is served upon you in confidence as an officer of the court in order that it may be properly investigated. Please be the man I hope you are and not like the Attorney Generals in New York and Massachusetts. As you can see, I do not have much respect for Yankee lawyers but it does not follow that I hate them all. I have found one ethical lawyer who will speak for my wife as I hit the road and I am a proud father of two Yankees and am married to one. I can't hate everyone. Please study this stuff and respond to me.

A couple of days ago I sent you an email that should have prompted you to ask me for more information if you are truly concerned about the actions of Big Banks and their recent mergers. When I received no reply, I called your office, and tried to inform the lady that answered of my concerns and of my sincere effort to make you aware. She had no time or interest in talking to me and told me to send my stuff to you by US Mail.

I am very curious if, when and what you may say about my concerns. As a father you must understand me. However the lawyer in you confuses me. I seek a friend not a foe. I have enough enemies. I have seen that you have been quite popular in your campaigns on behalf of the little guy and the people of your state obviously like you enough to keep you in office for so long. I must stress test your ethics in pursuit of a friend.

I know about other things far more important than crooked lawyers, bankers or mobsters. The sad part is many others do to but are too afraid to speak up. Therefore I must become a politician in order to try to speak of it in Parliament so I can expose the truth in such a way that others don't suffer from it. If perchance I fail and you have proven to me that you are ethical, my ghost will make certain that you will know all that I once knew. I do not have a death wish. I am just laying low for a bit. If the bastards corner me, I will turn as mean as a snake. As one father to another I will ask you this. What is the point in raising happy children and sending them out to live in a miserable world? Shouldn't we protect the future of all of the children for the benefit of our own? Whether or not I receive response from you, I must call you to court to testify. I sincerely hope that you will stand with me and not against me.

Cya'll in Court ☺
