

# What Can You Do?

- Take DVD's, Leaflets and Books (donations requested).
- Organise a film showing with friends and/or family. Free DVD's and booklets (like this) are available from <http://www.checktheevidence.com/>
- Research and correspond.
- Contact politicians, church people, academics, police – anyone in authority.
- Use your initiative. Tell at least 1 other person what you have seen here and/or write a letter to someone.
- Contact any or all the groups above and present the issue to them and explain its importance.

Thanks for reading!

*"In the counsels of Government, we must guard against the acquisition of unwarranted influence, whether sought or unsought, by the Military Industrial Complex. The potential for the disastrous rise of misplaced power exists, and will persist. We must never let the weight of this combination endanger our liberties or democratic processes. We should take nothing for granted. Only an alert and knowledgeable citizenry can compel the proper meshing of the huge industrial and military machinery of defense with our peaceful methods and goals so that security and liberty may prosper together."*

President Dwight Eisenhower, 1961

# Professors Make 9/11 Legal Challenges

- **Morgan Reynolds**, Texas A & M Professor Emeritus of Economics, former Chief Economist for the Department of Labor for President George W. Bush, and former Director of the Criminal Justice Center at the National Center for Policy Analysis

- **Dr Judy Wood**, Formerly a Professor of Mechanical Engineering, Clemson University, specialist in Materials Science and Interferometry filed a case in 2007.

- A nearly complete set of briefs and affidavits have been filed in U.S. District Court, Southern District of New York, by the attorney for Dr. Judy Wood in the case entitled Dr. Judy Wood ex rel. USA vs. Applied Research Associates, Inc. et al. 1:07cv3314 (Hon. George B. Daniels, Judge).

- In Wood v ARA, evidence confirming that the annihilation and pulverization in approximately 10 seconds of each of the Twin Towers could not possibly have been caused by supposed jetliner impacts and kerosene (jet fuel is kerosene) is put forth in detail by Dr. Judy Wood, plaintiff-relator.

- Reynolds v SAIC (1:07cv4612) relies on evidence that 767 wide-body jetliners could not have done what video images depict - such as attain the velocity of 540 mph at 1000ft or less above sea level or penetrate solid structural steel from nose to tail, wing-tip to wing-tip, without exploding, without slowing, without degrading, crumpling or losing a single part.

Alaska Magnetometer  
Data from 9/11/01

Do plane crashes affect the earth's magnetic field – 3500 miles away?

Was it just a coincidence that a Hurricane was at its closest to NYC on 9/11? Why was it barely reported, when it was bigger than Hurricane Katrina?

# Media Cover-up - BBC Announced Collapse of WTC 7 23 Minutes Early!

- Here is Building 7 (Salomon Brothers' Building) still Standing, Miss Standley! She announced it had collapsed at 4:57pm EST (building collapsed at 5:20) Richard Porter of the BBC denied knowing in advance.

"We no longer have the original tapes of our 9/11 coverage (for reasons of cock-up, not conspiracy). So if someone has got a recording of our output, I'd love to get hold of it." (They later "recovered" them, but could not explain how this story came about apart from saying "it was reported by CNN". They didn't care it was a serious error.)

# The Flight 93 (Shanksville) Crash

There is a problem with these photos of the Flight 93 Crash Site.  
Can you see what it is?

That's right... there are...  
no wings, no engine,  
no wheels, no fuselage  
Where did the plane go?

**The Windsor  
Tower in  
Madrid  
12th Feb 2005**

**Burned for 24 hours  
It did NOT collapse!**

# WTC Plane Crash Evidence - Anomalies

How can aluminium and light materials crash through solid steel girders?  
 What would happen if you fired a .44 Magnum bullet (denser and faster than a Boeing) at a steel girder?

Was the fuselage section planted?  
 How did it survive the "shredding" and "fireball"?

How did these rubber tyres survive the "crash" unburned?

## What was left of the Towers?

 Where did the building go? (Ambulance at Ground Level...)

This was taken before 5:20pm on 9-11. We can see WTC 7 in the cloud. Where is the Debris? (We are at ground level).

Does this look like a "Collapse" to you?
