

How would you like to join a ~~secret society~~ charity?

"We promise you, our networks will soon be very important."

Join common purpose - it's a once in a lifetime opportunity! It's your chance to gain a position of privilege and authority in a post-democratic era!

When you train to become a **leader** with us, you might not be certain what you will be leading, but you can rest assured you will be the envy of friends and family. You might meet European bankers, Political Leaders - we think this is the 'buzz' you were looking for when you first bought that tall 4x4!!!

Taxpayers money is easy pickings

We command very high fees for our trainings - most of it from the public purse (without anyone realising) - **in 2007/8 Gtr Manchester Police alone, gave us £38,121 of public money...and in Devon and Cornwall Police paid us £57,000.** The Public of course, still think this money has been spent on worthwhile schemes to help make the streets safer. If you multiply that by all Police Authorities in Britain, then add the NHS, Local Councils, Banks, The BBC no less, Universities etc, then you can see how big the market truly is. Now we are in Europe too.

Because our activities are covert, we prefer to ignore **Freedom of Information** and the **Data Protection act**. That's for ordinary people to adhere to, its not for the likes of you and I. Assuming of course that you're really up to being a 'Leader?'

A Shadow Government you can trust

We are moving towards a **new society** with a **new form of government**. The new leaders (to control and manage that society) will be **common purpose graduates**. We work closely with political leaders and always have. We pride ourselves on being the **first Political Charity**. At the very least we are the **first Charity set up to help rich people only**.

This is a chance for you to **advance your career** without having to follow all those **messy public interest rules** or community structures. We will help you **hold a public office for private gain**, and feel good about yourself. The term '**public servant**' is rather outdated wouldn't you agree?

Chatham House Rules

All our graduates are sworn to secrecy - so now you can enjoy meetings with **no agenda, records or accountability**. We understand that those in public office, can't help their greed, selfishness and double dealing! We follow the Bush-Cheney model because **accountability can be so tedious**.

Like many cults, we pride ourselves in being able to **modify and process people's values** - we usually manage to get people to do things which they would normally resist. Some are willing to '**Lead beyond their authority**' which gives us a willing army of '**useful idiots**' who at the drop of a hat will act in our best interests rather than society's. **Wouldn't you like to be one?** Find out more about our work: www.cpexposed.com
