It is a sign of wisdom to seek second, or third, opinions when making important decisions regarding health.

Black Salve Cancer Cure

Note we do not recommend you make black salve check credited [naturopaths](#) and [doctors are dangerous website for trusted sources](#). Some black salves are not true black salves. Companies try to come up with their "own" product so that it is "theirs" to market and different from all other products. However, because of this the term black salve has many different connotations. Some are more harmful and some may seem to work and some not at all. Really, no new ingredients need to be added as it will work effectively with the main ingredients listed.

The true black salve ingredients, when properly combined, make the product nothing short of remarkable – allowing people to heal from skin cancers that conventional medicine can literally make a mess of. Also, black salve does get to the root of skin cancers. Many have also taken black salve internally and had good results. Again, professional and knowledgeable help needs to be sought out.

Overview and credits.....

Black Salve Recipe

"For the medical profession this era may well be one of the most shameful and ethically questionable periods of its history." Stanley Wohl, M.D.- The Medical Industrial Complex (1984)

"PROVEN cancer cures like black salve and [Medical marijuana](#) remain none mainstream for treatment because of suppression and a profit motive- nothing else. It is for this reason the trustee's will now create open source information on the Panacea university to get real time progress " –Ashtweth Palise Trustee and Co founder of Panacea.

Overview and credits

A Panacea Volunteer -Marty who successfully documented his skin cancer cure using black salve

Given the conflict of interest present in the [Pharmaceutical industry](#) and in the "cancer business", the Panacea University has decided to open up an OPEN SOURCE section covering alternative medicine. This move is to help ensure that there is policing by an independent; evidence based none aligned NON PROFIT institute.

A complete FREE and open source alternative cancer cure course will be added into the new alternative medicine section on the Panacea University some time in 2011.

This document is a preview of what is to come. B17, Black Salve, BiCarb, Medical marijuana and MANY other suppressed cures will be added into a world worst completely free and open source alternative cancer cure resource. We also intend to film a Panacea production.

We have also decided to include an alternative medicine section in Panacea's [proposed granted non profit research and development centre](#). Mean time <http://www.hippocrates.com.au/>, www.naturalnews.com/ and www.mercola.com/ are a great alternative health care resource.

Full credits for this ALL this information must go to the one answer to cancer DVD, please consider supporting the [doctors are dangerous web site](#) and our hero [Elaine Hollingsworth Hollywood Film Star Turned Health Crusader](#). Getting the DVD helps every one.

The screenshot shows a website with a pink and blue color scheme. At the top, the text reads "DOCTORS ARE DANGEROUS TAKE CONTROL OF YOUR HEALTH AND ESCAPE THE SICKNESS INDUSTRY". On the left is a vertical navigation menu with buttons for Home, The Book, About Elaine, Online Shop, Products, Order, Aldara, Illnesses & Conditions, FAQ, Articles, Interviews, Recommended Reading, Archives, Testimonials, and Citizen Distributors. The main content area features a headline "Hollywood Movie Star Turns Health Crusader" above a photo of Elaine Hollingsworth. Below the photo is a red starburst graphic that says "Hot off the Press!!!". To the right of the starburst is text announcing the 11th edition of her book, "We are proud to announce the release of the 11th Edition of Elaine's book. It contains ground-breaking new information. [Click here](#) to read more...". A small image of the book cover is shown to the right. On the far right, a sidebar offers a "FREE Book Chapter" to receive access to one of Elaine's best-selling books, with a "Click Here" button. At the bottom of the main content area, a banner reads "BEWARE!!! Nobody is safe...".

Beautiful inside and out - Elaine Hollingsworth

Vivacious and energetic, Elaine is living proof that her theories work. A former Hollywood actress, she is Director of the Hippocrates Health Centre in Queensland, Australia, where she lectures on health issues and continues her research into natural ways of maintaining good health.

Note- [Quackwatch's coverage of black salve](#) is not accurate for the true black salve treatment, some salves may be un-safe always stick to the genuine black salve recipe from trusted sources.

Successful Black Salve testimonials are all over [you tube](#) and the [internet](#) - In fact they number in the thousands. These testimonials have only resulted because cancer sufferers researched the information by themselves. This is because your doctor currently does not prescribe this treatment to you. Why? There is there no informed consent, a combination of a conflict of interest and IGNORANCE of black salve remains. The conflict of interest is because you can nether patent this cure (due to it containing natural ingredients) or makes as much money from this treatment in compassion to the current prescribed drugs and chemo therapy. It's as simple as that.

Black Salve contains natural herbs and enzymes that are proven to neutralize carcinogens. It is applied on the skin or where the cancer location is thought to be (ie - breast cancer or tumour) to "draw it out". The skin once excreting the cancer then heals and the "hole" closes over.

Breast cancer, skin cancer and even a diagnosed untreatable Ewing Sarcoma (bone cancer) has been cured using black salve -Full references can be found on the once answer to cancer DVD. This Ewing Sarcoma CURE case is unique as this is a condition where only Chemo was thought to extend the life of the person and not cures it out right.

The potential of this cancer CURE is yet to be fully realized in consensus reality - The PUBLIC MUST CREATE PRESSURE (activism and community groups) to ensure that Black Salve trials are PUBLICLY done and are policed. If we don't take this cancer cure PROOF to the media, get governments on record and

the cancer clinics to create public pressure there will be no real time progress.

PLEASE READ THAT AGAIN

Big Pharma typically finance and make billions of dollars selling Chemo therapy drugs, there is no policing the current conflict of interest at this time. This is why we need an alternative medicine institute with a public face. In the mean time there is enough PROVEN cases file and EXPOSE to get the ball rolling so to speak.

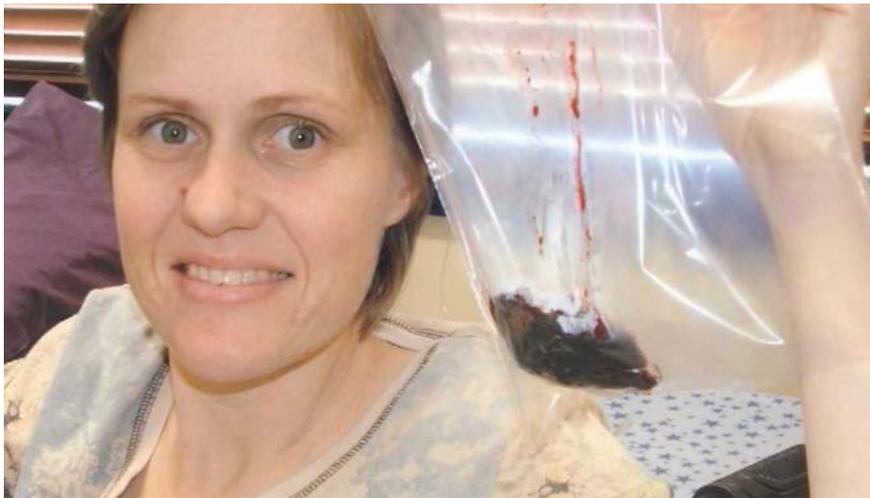

Tanya Anderson testifying to her successful black salve cure of an "incurable" cancer Ewing Sarcoma (bone cancer) Taken from the one answer to Cancer DVD- <http://www.doctorsaredangerous.com/>

The proof that PUBLIC and POLICED black salve trials must be done to find out the true capacity of this treatment can be easily verified with medical records from Tanya Anderson's case. Tanya Anderson's cancer cured case is unique, Tanya and her family have testified to black salve pulling out and destroying what the medical establishment claims is an "incurable" cancer. To the medical industry Ewing Sarcoma is a condition where only Chemo was thought to extend the life of the person and not cure it out right.

The Medical profession had nothing to offer me - Tanya Anderson testifying to her successful black salve cure of an "incurable" cancer Ewing Sarcoma (bone cancer) Taken from the one answer to Cancer DVD- <http://www.doctorsaredangerous.com/>

One of our Heroes- Tanya Anderson Cured! - Taken from the one answer to Cancer DVD- <http://www.doctorsaredangerous.com/>

We are only just begging to find out about these remarkable properties due to cases appearing by chance. Progress could be far greater. We cannot expect real time progress when people only knowing about these cures through word of mouth. So far you can only access them if you search for them on the internet or someone happens to tell you about them. It is obvious that this is limiting this knowledge from public access.

This needs to be rectified with public pressure and EXPOSURE. The public need INFRASTRUCTURE specific for public access, education and SECURITY. One that is evidence based, independent, non aligned and NON Profit. The significance for policing this neglect, suppression and inherent road blocks with independent

infrastructure can be seen by simply researching the sheer amount of alternative cancer cure cases that remain suppressed. There are many.

[Doctor Simoncini](#), oncologist Rome Italy. Simoncini is Inventor of the alternative [Bi-Carb cancer treatment](#).

Without infrastructure we have no security, PUBLIC AWARENESS or TRAINING. ALL of present physicians are not conspiring, they will not opt for these treatments and CURES because of their conditioning, training, and acceptance certain premises; physicians will continue to be trained in pharmacology, not in prevention. They deal with concerning chronic illnesses and their economic interest is in sickness maintenance, not prevention.

The ingredients of Black salve are natural and cannot be meaningfully patented. The B17, Black salve and the BiCarb treatments for example are without a basis to secure a monopoly. These cures do not lend themselves to proprietary ownership and the monopolistic privileges it brings.

Hence there is motive for racketeering in medicine and the suppression of alternatives. There can be no doubt that this is the reason for Greg Caton's experience. Greg founded a company called Alpha Omega labs and produced a black salve formula called "Cansema". This became available in 1992. There are literally 1000's of successful testimonials posted on the internet and on You-Tube.

It was in 1996 that they started to produce "Tonic III". From 1992 to 2003, a few sold the Alpha Omega products in animal nutrition centres. Many animals benefited from these two products. On September 17, 2003, the FDA shut down the company, and the products were not available for about five years. This forced Greg Caton to move and set up in Ecuador. As of June 2, 2008, they WERE back in business in Ecuador. The [Alpha Omega web site](#) published information about the products and their use; however, on December 2, 2009, the FDA again arrested and kidnapped Greg Caton, the owner. [Further details of this suppression story](#) are told by his wife Cathryn Caton:

The Modern Version of this herbal remedy. The FDA attempted to shut down a company called Cansema for providing this cure for sale to suffers

Thankfully Greg is now back up and running. Greg has written about his case in an online book *Written by AO Labs' Founder, Greg Caton, contains a history of Alpha Omega Labs -- plus an extensive history on the discovery, patent filings, and shameful suppression of this highly effective healing modality . . . many suppressed formulas and healing techniques provided . . . and the road we must take, as a species, to keep legitimate, effective healing techniques alive, in a world of Elitists intent on using 'orthodox medicine' as a medium for financially enslaving the general public - [Meditopia](#).*

There are enough doctors, patients and known alternative cures to justify trials and stop Big Pharma's researchers from wasting further research money. This SUPPRESSED information needs your help to spread effectively through blogs, friends, and community groups and in the media. **Please help forward this PDF to your doctors, government members and to as many as possible.** We are all needed to work together, that is the very essence of the Panacea spirit. **Only as a community can we create security. There is no university, doctor, faculty or cancer clinic teaching this method at this time, if you can help this effort please [contact us](#).**

Black Salve Recipe

Note we do not recommend you make black salve check the credited naturopaths on the on doctors are dangerous website for trusted sources. Consult your naturopath [here to find out how to apply this.](#)

All screenshots are copyright and credited to Elaine Hollingsworth's [one answer to cancer DVD](#), please support her research and consider purchasing this DVD, This is the only open source method on DVD that we know of.

Step 1

First gather 50 grams of Bloodroot, Chapparral, Graviola and Galangal.

Bloodroot -*Sanguinaria Canadensis*

Chapparral (*Larrea mexicata*)

Graviola (*Annona muricata*)

Galangal root (*Alpinia officinarium*)

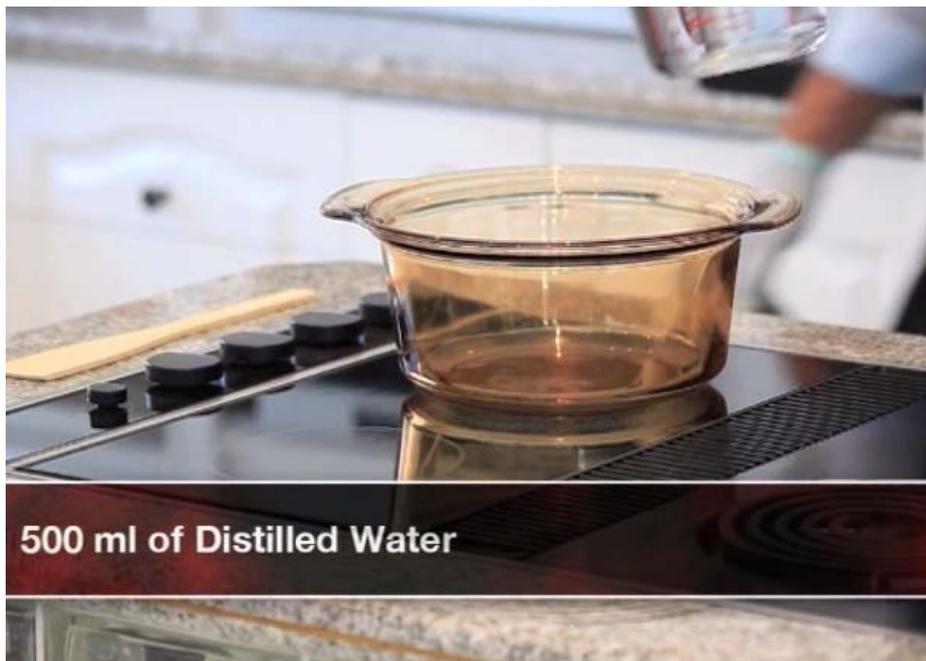

Then mix all ingredients into a bowl together.

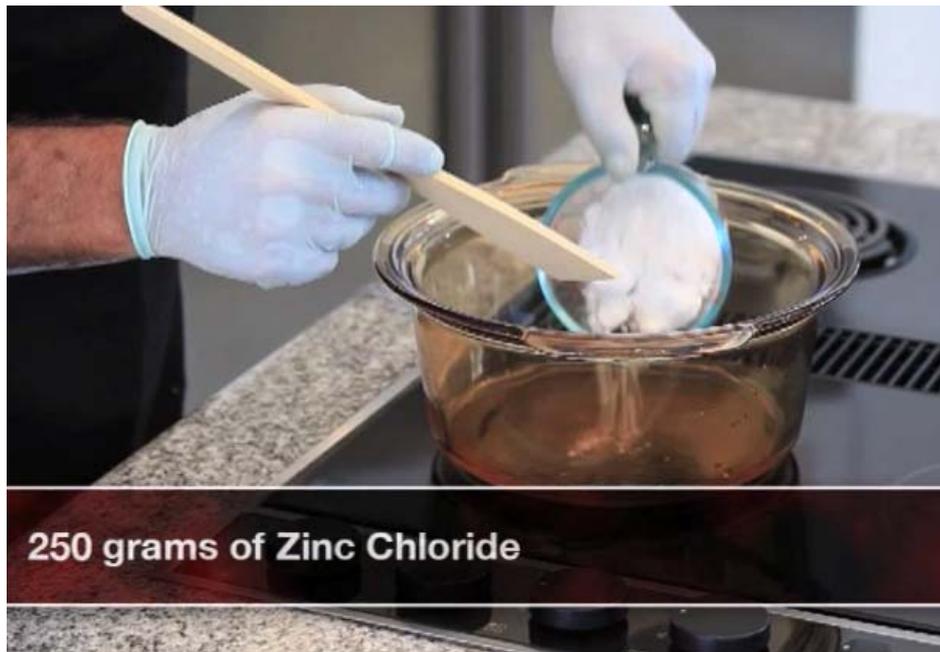

Step 2

Pour 500mls of distilled water into a pot.

Then add 250grams of Zinc Chloride to the water

Step 3

Bring this mixture to the boil then simmer stirring frequently to ensure that there are no lumps

Step 4

Next add the 4 dried herbs to the simmering mixture.

Stir continuously until ALL the lumps disappear.

This quantity is more than enough to last a family a lifetime. Hence this recipe will need to be cut down to suit your needs.

Step 5

Once you have a smooth consistency add 25ml of [DMSO](#) (Dimethylsulphoxidein))to the mixture whilst still stirring. DMSO acts as a carrier and helps take the formula deep into the tissues

Step 6

Add 25mls of glycerine and stir it in, **this will help keep the formula moist. Depending on the humidity you may have to add a bit more glycerine. Allow the mixture to simmer for about 15 minutes.**

Step 7

When the mixture cools and cures it isn't runny anymore and has a paste like consistency.

Step 8

Store the black salve in suitable glass containers; it is best used after it has been sitting for 2 days at room temperature. Store these containers in your fridge it will keep indefinitely but may dry up over time if this is the case simply add a bit of water to re hydrate the mixture.

End
